The listed prices include handmade paper, one print cycle (that is one colour on one side) and VAT. Each new print cycle adds an additional 30 % to the price. Additional work such as cutting, folding, perforating, etc. will be added to the price.

The usual printing time is 1 week. If you are in a hurry, our printmaker will print your order within 2 working days. This will however mean that she will be working overtime - it will cost an extra 50 % of the overall price.

The minium order price is 45 €. Contact us for the exact price calculation!

We will happily print your own design. The file must be black and white, PDF format in the exact size. The ideal image format is vector; if you send a bitmap image, please make sure that the resolution is at least 600 dpi, ideally 1200 dpi. There must be a 1 cm edge without print at least on one side of the design (for printing reasons). If you want to print in multiple colours, each colour must be on a separate sheet. Contact us for further guidance.

You can also order a design from us, our designer's rate is 20 € per hour.
